SOME of Tilden's strong supporters think Cleveland will be nominated at Chicago.

BLAINE graduated No. 1 in a class of thirty young men at the Georgetown (Ky.) College in 1848.

THE paper house of Messrs. Chatfield & Woods, at Cincinnati, burned on Sunday. The loss was about \$50,000.

IT is reported that a rescue party is organizing to release John Bush, the condemned murderer, at Lexington.

SENATOR BUCK has expressed the opinion that the amendment for the relief of the whisky interest will be adopted.

SENATOR PAYNE is considered out of the Presidential race. He candidly favors Cleveland as the Democratic candidate.

MANY Plumed Knight clubs have been organized in Iowa. The members wear black hats with feathers stuck in the bands.

THE Cincinnati Commercial Gazette says the Republican pollsters are "dispeptic" who confound irritability with intellectuality.

THE New Orleans Times-Democrat joins the St. Louis Republican in refusing to accept Mr. Tilden's letter of withdrawal as final.

SENATOR BUCK is reported as being of the opinion that Kentucky Democrats are about equally divided between McDonald and Bayard in their choice for a Presidential candidate.

THE negroes at Mt. Sterling have threatened to lynch Green Clay, aged sixteen, who fatally stabbed colored boy recently. Trouble is looked for.

A BLAINE organ in Massachusetts makes this thrilling appeal: "Every postoffice in this State will be in the hands of Democrats next summer if we failer now."

THE selection of John C. New as Chairman of the Indiana Republican Central Committee causes a general dissatisfaction, as it is feared he will be opposed by the workmen.

THE Louisville Times has been looking into Mr. Blaine's war record. It says: The Knightliness upon which James G. Blaine plumes himself was never more fully illustrated than when, during his country's greatest peril, he went to the rear and gallantly hired a substitute.

THE Independent Republican Committee elected George William Curtis Chairman, and approved a document to be sent throughout the country for signatures, protesting against the nomination of Blaine and Logan, and endorsing a general conference, to meet immediately after the Democratic Convention, to take such action as the Democratic nominations may render advisable.

THE New York Herald recapitulates the votes of the New York district delegates to the Chicago Convention as follows: The calculation said to be made from interviews with the seventy-two delegates: Outspoken for Cleveland, twenty-eight; known to be for Cleveland, seven; noncommittal, ten; views not known or obtained, thirteen; for Bayard, five; for Flower, four; for Hancock, one.

THE convention to select a Democratic nominee for this, the 9th Congressional district, has been called to meet at Catehingsburg, Ky., on Thursday, August 21st, at 12 o'clock. The county conventions are to be called on Saturday, August 16th, the county committees to decide upon the manner of selecting the delegates. The vote of Judge Riddell in August is to be the basis of representation for the temporary organization.

Too Sensitive.

St. Louis Post-Dispatch. There is something in the apparition of a plump young woman in a tight-fitting, flesh-colored jersey standing or sitting at a window or perched on the front stoop on these warm evenings calculated to make the fringe of hair on a bald man's head rise up and to put a sensitive young man in a pensive perspiration. There is a realism about it that tends to communicate a slight shock at first sight of shrinking nature. The general adoption of the color for jerseys is likely to have a distressing effect on the eyes of young men, as an inclination to keep them fixed on nowhere and nothingness or to cast them in blinking modesty on the ground is already noticeable.

CONGRESS.

WASHINGTON, June 24.—After the call of the House Mr. Randall, by order of the Committee, and a unanimous vote, passed the Sundry Civil Appropriation Bill, with the right reserved to vote on some half a dozen amendments. After a brief debate the rules were suspended and the clerk began reading the bill.

Mr. Hale offered a resolution directing the Committee on Expenditures of Public Money to investigate the recent defalcations of the subcommittee in all the departments in Washington and the alleged frauds on the Government by means of false vouchers in the Navy Department.

Mr. Ingalls said some radical defects must exist in the system of Departmental accounts, which permitted such peculations. He hoped the investigation would be broad and thorough. The resolution was adopted.

The House bill authorizing the Chairman of the subcommittee or any member of either House to administer the oath, was passed.

Mr. Frye introduced a bill authorizing the appointment of a Commission of Naval Architects and Marine Engineers to examine the new designs for steamships.

A bill granting the right of way through the Indian Territory to the Southern Kansas Railroad was passed.

Mr. Plumb gave notice that to-morrow he will move to take up the bill to forfeit the unearned land grants of the Atlantic & Pacific Railroad.

Consideration of the Mexican Pension Bill was resumed the pending question being an amendment of Mr. Ingalls to remove the limitation from the arrears of pensions act.

Mr. Sherman opposed this proposition. He said it involved a large sum of money. His feelings were with the Union soldiers, but this amendment affected all the interests of the people and he was bound to consider the common good. This was not the time to make such an enormous demand on the Treasury.

Mr. Sherman said the bill was not the one he had in mind. The bill was not the one he had in mind. The bill was not the one he had in mind. The bill was not the one he had in mind.

THE FAILURE DENIED.

NEW YORK, June 24.—Inquiry shows Judge Hilton to be at Saratoga, and his three sons in Europa. Persons intimately acquainted with Hilton's affairs denounce the rumor as absurd, sensational and utterly unfounded.

A MURDER AVENGED.

Which, However, Was the Result of the Laxity of the Law.

SILVERTON, Colo., June 24.—This village was startled yesterday by a report that ex-Judge Hilton of New York, who had shot and killed Billy Wilson, on the Chattanooga Road, near Butte City, seven miles from Silverton. This was found to be true, and Justice Earl, with six jurymen, brought the body to town, where a secret inquest was held. Canon is a brother of Marshal Cain of Fort Scott, who a short time ago shot Riley Lambert on slight provocation, for which offense he was never tried. Wilson had \$175, a silver watch and other articles of value on his person when found. His horse was found a few feet away, shot in the heart. As there are some fears of lynching, Sheriff Sullivan has appointed Canon a Deputy sheriff, and more trouble may come.

ALIVE IN THE GRAVE.

Evidence of What Must Have Been a Horrible Awakening.

WHEELING, W. Va., June 24.—One of those ghastly stories of interest before life has become extinct is current in this city this morning. Last May, three months after marriage, a young lady whose name is withheld, died after a lingering illness. Her body was placed temporarily in the family lot. A short time since, when the body was disinterred for final burial, there was unmistakable evidence of a desperate struggle. The body was found lying face down, with the hands flung with hair torn from the head of the entombed victim in despair at the failure to escape from a terrible fate. The family of the unfortunate young lady are nearly crazed with grief.

The blast not exploding at the proper time, the workmen entered the tunnel to ascertain the cause of the delay, when the explosion occurred.

New York Dynamite Scare.

NEW YORK, June 24.—Word was received at Police Headquarters this morning that a large quantity of dynamite had been found on Pier 3 of East River without an escort. It turned out to be terpelous used by railroad companies for signals in foggy weather. No owner appearing, the Bureau of Comptrols had the barrels and boxes containing the torpedoes removed from the pier.

He twisted around as he mopped his brow, in all kinds of odd positions. And remarked in a dis-allowing tone of "the singular thermal conditions." "The air in this thermal region," he said "is seeking a lower level." But he might as well have spoken the words, "It's getting as hot as the devil."

THE business men of Mayville, we are gratified to announce, are responding promptly and liberally in the matter of the opera house scheme. Several lists in the hands of the committee have already been filled. Our citizens are greatly indebted to the firmen and they now have the opportunity to pay part of the debt.

THE Portsmouth Times thus speaks of Hauke's band of this city: "The Mayville band played Dixie as it marched from the hall of the Knights Templar, to the boat, at midnight. Adown the sloping country lane The wheelman wheeled on his wheel, With speed of a wild hurricane. As upon the peals like a reel, Crouched in a corner of the fence, The ambushed lay low in wait, Ready to ambush spring them And hurl the victim to his fate. The wheelman came—"Doo-hoo! doo-hoo!" The old dog jumped into the way; Full ninety feet the wheelman flew, And wheeled his wheel no more that day."

MAYVILLE bicyclists are warned to be on the lookout. Here is what the Wheelman's Gazette says: "Adown the sloping country lane The wheelman wheeled on his wheel, With speed of a wild hurricane. As upon the peals like a reel, Crouched in a corner of the fence, The ambushed lay low in wait, Ready to ambush spring them And hurl the victim to his fate. The wheelman came—"Doo-hoo! doo-hoo!" The old dog jumped into the way; Full ninety feet the wheelman flew, And wheeled his wheel no more that day."

To the Public.

The undersigned has been named by the managers of the Southern Exposition as commissioner for this county for the exhibition of 1894. State appropriations. The State of Kentucky has made an appropriation of \$10,000 for the purpose of fostering and assisting the counties in making a favorable display of the resources of the State. This sum is placed under the control of a Commission, of which the State Geologist is Chairman, and a portion of it will undoubtedly be set apart for the benefit of this county. Kentucky's opportunity—Kentucky, so great in her resources, has never had an opportunity like the present for demonstrating to the world the extent and richness of those resources, as this is the first organized effort ever made by the State at large to secure proper display of its immense capacities. For the whole people.—This opportunity is not for one section of the State, but for the whole people of Kentucky. It will present our State with all its wealth, resources, and attractions before the world, and will give each county its proper place in the grand aggregation. The county that most interests itself in the effort will be the best showing for its means and will be judged accordingly. It is, therefore, every one's interest to make the best display we can. A great Exposition.—The managers of the Southern Exposition have added new and wonderful attractions to the display this year, and every citizen of Kentucky will feel a just pride in the continued success of this, the largest exposition ever successfully organized and maintained in this country, except the Centennial of 1876. It is estimated that the admission of Kentucky people alone will number over 500,000, and on the basis of last year's admissions and the new attractions that the general admissions will number 1,500,000. Our County—Our county should make a creditable display. We have plenty of resources, and with co-operation of all our people we can make a splendid exhibit. We ask suggestions and contributions from every spirited citizen of the county, and we hope this county and State will be heartily seconded by our people. For any special information write to Bennett H. Young, President, or J. M. Wright, General Manager, Southern Exposition, at Louisville, Ky., or apply to any of the Commissioners. J. D. KAUF, Commissioner for County of Mason

What is a "Judge" in Iowa, who on this question doth enlarge. But, as amended and revised—And simply what we call law. And what it meant to us. —DAN MOORE (through New Room).

THE medical press is beginning to run the old story, true or false, about the Dr. James R. Wood. It appears that the Doctor was surrounded by a group of surgeons at Bellevue, to whom he gave this dictum: "There are but three surgeons in the United States, who are really worthy of being called eminent. The first is Dr. —, the second is Dr. —, and the third —, undoubtedly, gentlemen, prevents my naming the third one to you," and the Doctor bowed himself gracefully away from his somewhat amused brethren.

THE Chicago Druggist says that the increased output of the world would be polished, as American bristles are vastly inferior to the foreign product. "The American hog has reached too high a state of cultivation," he writes, "and the pleasure calling of a bristle producer. Nature has apparently ordered that the hog shall be eminent in but one character, and that is in the production of a pork producer—eminence in one being at the sacrifice of distinction in the other."

A Way to Grow Wise.

St. Nicholas for July.

After reading a book, or an article, or an item of information from any reliable source, before turning your attention to other things, give two or three minutes' quiet thought to the subject that has just been presented to your mind; see how much you can remember concerning it; and if there were many new ideas, instructive facts or points of special interest that impressed you as you read, force yourself to recall them. It may be a little troublesome at first until your mind gets under control and learns to obey you will, but the very effort to think it out will engrave the facts deeply upon the memory, so deeply that they will not be effaced by the rushing in of a new and different set of ideas; whereas, if the matter be given no further consideration at all, the impressions you have received will fade away so entirely that within a few weeks you will be totally unable to remember more than a dim outline of them.

Form the good habit, then, of always reviewing what has just been read. It exercises and disciplines the mental faculties, strengthens the memory and teaches concentration of thought.

You will soon learn in this way, to think and reason intelligently, to separate and classify different kinds of information, and in this way, instead of being a hazy learner, you will be a clear thinker. There are but three various contents are thrown together in careless confusion and disorder, will be a store house of knowledge, neatly labeled, has its own particular place and is ready for use the instant there is need of it.
